

REMARKS/ARGUMENTS

A Supplemental declaration identifying the application by title and application number, signed and dated by inventor 1 is submitted herewith to correct the deficiency in the originally submitted declaration related to inventor 1. The Abstract of disclosure has been appropriately amended in response to the examiner's objection to the specification, and to correctly describe the invention being claimed.

Claims 1 -13 which were rejected by the examiner are cancelled and new claims 14-17 have been added. These claims particularly point out and distinctly claim the subject matter of the invention that is free of the art, namely a method of therapeutically or prophylactically treating skin or scalp infection, and a method of therapeutically or prophylactically treating inflammation of the skin or connective tissues, using a polyisoprenylated benzophenones composition comprising garcinol and cambogin.

As this response is being submitted after the expiration of the set shortened statutory period for reply, applicants respectfully request an extension of time of 3 months, for which the required fee is submitted herewith. Applicants respectfully request that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

SABINSA CORPORATION
